Work Experience

Research Assistant | Voon Lab, Dept. of Psychiatry, University of Cambridge

Cambridge, UK

- The Voon Lab focuses on identifying biomarkers via neuromodulation to better understand and optimize treatment for addictive and compulsive disorders *July 2023 – Aug 2023*
- Helped run various NIBS studies using apparatus such as TMS, iTBS, cTBS, and bNIRS with the goal of further uncovering the underlying mechanisms of compulsivity and decision-making
- Completed a literature review on the function and neuromodulatory effects of tACS

Employee | Princeton TigerCall

New Jersey, U.S.

- Called alumni and parents to convince them to make gifts to Annual Giving at Princeton University *Feb 2023 – May 2023*
- Developed cold-calling skills, better communication, and worked in a team-focused environment

Shadow Experience | Dr. John Li M.D., Otolaryngology

Jupiter, Florida, U.S.

- Shadowed Dr. Li's work in his clinic and the Jupiter Outpatient Surgery Center *Aug 2022*
- Given the opportunity to diagnose and treat patients with BPPV using the 360° Multiaxial Chair
- Observed a variety of surgeries including: stapedectomy, meningoencephalocele, tonsillectomy
- Acquired detailed knowledge on the anatomy of the ear, nose, throat, and common conditions

Intern (Strategy & Commercial) | BaseBit Technologies

Hong Kong

- Contributed to the company business plan that was created for a potential \$20M HKD grant from HKSTP *Jun 2022 – Jul 2022*
- Reached out to, analyzed, and created summary reports of various conferences in Hong Kong that best fit the company's marketing strategy
- Translated marketing materials from Mandarin to English

Volunteer | Acute Rehab Unit, Penn Medicine Princeton Medical Center

New Jersey, U.S.

- Stocked patient rooms and provided non-medical general services *Jan 2022 – Apr 2022*
- Assisted families of patients (ex: navigation through the facility)
